Sharp Brenk in Brooklyn Rapid Transit the Feature of the Day-Low Rate of Earnings the Cause-

NEW YORK, July 9.- The movements in today's market were not directly explain- year able by any of the developments over Sunday or by those with the course of the cut into this year's earnings. day's business session. At the opening of business a firm tone was common, and this tendency of the market continued until well toward midday.

There was subsequently a rapid break in Brooklyn Rapid Transit, which was extensive enough to prove disturbing to conby a general reaction. The particular weakness of Brooklyn Rapid Transit was apparently owing to selling of the stock, based upon the publication of figures showing that only about one-half of 1 per cent had been earned on the stock ending the fiscal year. The various agencies which gave them circulation did not reveal the source of their authority.

The official statement of the company should be ready for publication within a comparatively short time, and its figures may or may not be in line with those rablished today, but the latter were at least seemingly accepted as authentic by the persons interested in the stock. Coincidentally with the decline in Brooklyn Rapid Transit, Metropolitan Street Railway also broke very sharply. But in this instance the greater part of the decline was subsequently recovered. Nothing whatever in the way of news or rumar attended the

Other notably weak features of the market were Tennessee Coal and Iron and Baltimore and Ohio. The weakness of the first named seemed to be owing to the belief that there must be a further decline in pig-iron before a final readjustment of the dis-turbed conditions in the iron and steel trades can be effected. In the instance of Baltimore and Ohio, the pressure was at-tended by reports that there were dissen-

directors next Monday.

Nothing that was new or definite attended the movements in the anthractic stocks. The usual dividend was declared today on New Jersey Contral. The dealings were notive in the granger stocks, Louisville and Nishville, the Atchisons, and the Pacific shares. Except for Sugar Refining the industrial quarter was not particularly active.

The London market was dull and uncertain, the main influence there being the dubious situation in China. American

cubious situation in China. American stocks were neglected and on bilance the dealings here for foreign scrount were lim-ited to sales of a few thousand shares.

The market for the most part yesterday was quiet and fairly strong, rather uninteresting. A few securities formed somewhat vivid exceptions. Brooklyn Rapid Transit was weak almost to the point of a paule, and other securities followed its lead in a milder way. Hinois Central booned all day making the highest price for several months, and Atchison preferred was very strong, though it made no particular advance in Colonial price. It will be seen that irregularity was as much the feature of the day as anything else, such irregularity as gives no indication as to future movements. The news and goreip of the day was mostly town & Tennalistane encouraging. The advance in the price of refined sugar promised last week took
place. The despatches from China were no
worse. The enruings statements received
were good. The talk of increases in divicends continued hopeful, though in the

The American Sugar Refining Company yesterday advanced the price of all grades of refined sugar ten points, and the inde-pendent refiners immediately followed the lead of the trust. This advance makes the wholesale price, subject to no rebate, six cent a pound for granulated. It is the highest price for many months and considerably more than a cent a pound high r than the price of two months or so are The advances have been unprecedenced. The street interprets them in valious wy to suit its individual opinion regarding Sugar stock. Whatever they may man of a settlement of the sugar fight or of culy the beginning of a harder fight than ever-before, the price of the stock flucturies comparatively little. It was fairly strong yesterday, with a fractional gain for the day, closing at 1163-4.

The gross earnings of the Texas and Faeific for the last week of June show an intended by reports that there were dissentisions in the management on the question of dividend on the common.

The railway list was generally very steady, although even in that quarter a great deal of irregularity prevalled. The strongest features there were Jersey Central, Reading first preferred, and illinois Central. The last numed scored a noteworthy advance on reports that the rate of dividend would be advanced from 5 to 6 per cent per annum at the meeting of the directors next Monday.

EASTERNS WIN AGAIN.

The Alexandrians Beaten by a Score

The Eastern Athletic Club added another victory to its list yesterday afternoon by defeating the team from Alexandria in an minteresting contest. The Virginians were never in the fight.

The only man among the visitors who distinguished himself was Pitcher Ed-wards, who had ten strike-outs to his credit and gave only three bases on balls. His support, however, was ragged, as the error column shows. The hits were evenly divided. Each pitcher had an even dozen charged up. Colliflower, for the Easterns, made a triple and a double, while Purdy, for the visitors, knocked a beauty to cen-tre for two bases.
